

Dec. 5, 2016 - AGEM Issues Statement Of Support For Pending Gaming Legislation In Brazil, Japan

“The Association of Gaming Equipment Manufacturers (AGEM) supports the legalization of regulated gambling in Brazil and Japan and the introduction of gaming entertainment that will bring economic development, tax revenue and increased employment and tourism to both countries. As the leading trade association representing all of the top gaming machine, lottery, table and systems suppliers in the world, AGEM advocates for gaming markets committed to a strong regulatory framework, machine and technology certifications, the elimination of illegal gambling, player fairness and entertainment, and revenue maximization for the host government. AGEM also promotes best practices from other respected and regulated markets, including giving the regulatory agency the authority to determine, among other things, the appropriate types of games for the market.”
